Subject: Fw: Public Notice - proposed revisions to WQS - North Dakota Department of Environmental Quality

Hi Ronni, I hope all is well and that you had a fun weekend.

I presume Standing Rock received notice of ND DEQ's proposed revised Water Quality Standards, but just in case, the link is below. Pete Wax said he believes all of the Tribes in North Dakota are on the state's mailing list for public notices so Standing Rock should have received them, but I thought I'd send you the link just in case...

The public comment period ends this Friday, October 23, which doesn't give you much time to review them...

Talk to you soon,
Holly
